

## ROBERT ŠOKO

“Balkan in the heart, Berlin in the mind, the world as a dancefloor.”

### ARTIST BIOGRAPHY | PRESS TEXT

Based in Berlin and with roots in the Balkans, Robert Soko has for years been one of the defining DJs of the international Balkan and Global Beats scene. Known for his energetic and emotional sets, he combines traditional Balkan sounds with electronic club music, creating a unique style somewhere between culture, club and ecstasy.

What once started as a passion developed over the years into an international career with performances in numerous clubs and events around the world, including Tokyo, Mexico City, New York, London and Paris. He repeatedly succeeds in bringing together people from different cultures and generations on the dancefloor.

His sets are not just a selection of tracks, but carefully built musical journeys – from nostalgic moments to ecstatic peaks. His sense for dramaturgy, audience and atmosphere has earned him a permanent place in the international scene.

Berlin is not only his base, but also an important source of inspiration: raw, free, diverse and limitless – qualities that are also reflected in his music. Robert Soko stands for packed dancefloors, long nights and music that connects people.

## TECH-RIDER

The artist performs using his own laptop (MacBook) and DJ controller. The audio signal is sent from the controller via a standard RCA/cinch cable to the mixer or PA system.

### **To be provided by the organizer:**

- Professional PA system appropriate for the venue
- DJ table (approx. 120 cm height) / stable table for controller and laptop
- Power supply (230V) at the DJ booth
- 1 free stereo channel on the mixer (RCA/cinch or adapters to XLR/jack)
- Monitor speaker near the DJ
- Sufficient lighting at the DJ booth
- 1 CD player (e.g. Pioneer CDJ) as backup
